

# MATRIX

## 3.3kW AC CHARGER (5 Connectors)

### OVERVIEW

Our **3.3 KW AC EV Charger** with multiway connectivity and multiple charging outputs having highly accurate metering capabilities Compliant to world-class standards of EV communication protocols like **OCPP1.6J**. We are work bound to deliver best service and management solution for your needs.

### FEATURES

- OCPP1.6 Compliant
- Under & over current/voltage protection
- Emergency Stop
- Firmware over the air
- Earth fault protection
- In-built metering capabilities
- Multi-way user connectivity (WiFi/LTE)
- Authentication based on RFID scan
- Configuration based on mobile application
- User friendly graphical display

## SPECIFICATIONS

|                        |  |
|------------------------|--|
| Power                  | upto 3.3kW   |
| Display                | 128x64 graphical display   |
| Input Voltage          | 3 phase 415V   |
| No. of Output          | 5  |
| Output Current         | 16Amp per Connectors   |
| Output charging outlet | Industrial Socket (3), Water proof power socket (2)  |
| Communication protocol | OCPP1.6J   |
| Communication network  | LTE/Wifi   |
| Metering               | High Accuracy Class 1 Meter  |
| Protection             | Over/Under Voltage, Over current, Short Circuit protection, Earth detection, Leakage protection. |
| Advance Features       | Mobile application, FOTA, Offline data logging.  |
| Charging operation     | CMS web, app and RFID Scan code based.   |
