

3.3kW AC CHARGER

OVERVIEW

Our 3.3 KW AC EV Charger with multiway connectivity having in-built metering capabilties Compliant to world-class standards of EV communication protocols like OCPP1.6J.

We are work bound to deilver best service and managment solution for your needs.

FEATURES

- OCPPJ-1.6 Compliant.
- Under & over current/voltage protection
 Emergency Stop.
- Firmware over the air.
- Earth fault protection
- In-built metering capabilities.

- Multi-way user connectivity (WiFi/LTE).
- Authentication based on RFID scan.
- Configuration based on mobile application.

SPECIFICATIONS	
Power	upto 3.3kW
Input Voltage	230V
No. of Output	1
Output Current	16Amp
Output charging outlet	Industrial Socket
Communication protocol	OCPP1.6J
Communication network	LTE/Wifi
Metering	Internal metering
Protection	Over/Under Voltage, Over current, Short Circuit protection, Earth detection, Leakage protection
Advance Features	Mobile application, FOTA, Offline data logging & RGB status LED
Charging operation	CMS web, app and RFID Scan code based.
